

## **Vernon Board of Education Workers Compensation Preferred Provider Network Information**

Having received approval from the Connecticut Workers' Compensation Commission, the Vernon Board of Education has transitioned to an extensive Preferred Provider Network (PPN) for workers' compensation injuries and illnesses effective January 15, 2021. The PPN is administered by Prime Health Services, working with the Town's third-party administrator, CIRMA, for work-related injuries. Employees will notice little to no change in the process, as research conducted found all current providers being utilized by our employees are enrolled in the Network.

**To find a provider you can go to**
